THINGS TO KEEP IN MIND:
- Fonts should be flattened or sent with your design.
- Avoid designing across seams as art elements will not match up.
- Our Podiumwear logos need to remain on all garments.
- Logos and design elements should be in vector format. If any element isn't a vector it can be evaluated by one of our designers, this could delay your order.
- We print using RGB values; if you have a Pantone we will do our best to match it, this could delay your order.
- Feel free to contact your design or Podiumwear representative with questions on any of the above.
